## ...GIVE SHAPE TO YOUR IDEAS

Six colours, six sizes and two surface finishes to cover floors and walls in contemporary spaces and in renovated rooms. Two sizes with grip finish and a thickness of 19 mm dedicated to outdoor design. STUDIO lets your creativity run wild and inspires infinite installation layouts and colour combinations, which may be further enhanced with original decorative proposals that broaden the customisation options of each space.

Studio 50 features 8 different patterns for the 120x120 size, 8 for the 100x100, 16 for the 80x80 and 60x120 and many others for the other smaller sizes to create a varied and original ensemble.

TECHNICAL NOTES

All sizes are nominal. Rovic Tiles reserves the right to modify the information and the characteristics illustrated in this catalogue (which are in any case not legally binding) at any moment. The colours and appearance features of the products are as close as possible to reality, within the limitation of the printing process.

LAYING SUGGESTIONS

Lay some pieces of product (at least 3 sqm) to check the overall effect. Lay the material taking it from several boxes and carefully check its size accuracy, shade and material sorting. • Suggested laying using same color. For rectified tile minimum 2mm - 1/16" grout joint is recommended both for same size and modular pattern installations. • However, the designers has to establish the correct way of application of the tiles depending on the structure and the foreseen utilization of the floor.

When laying, you are recommended not to stagger the strips by more than 25% of the length.

EN 14411:2012

Dry pressed ceramic tile, with water absorption  $E_w \leq 0,5\%$ , for internal and external floorings.
